

Funding Your Innovation

Don't miss this event!

Innovative technologies that have important social and economic impact are needed in energy, cybersecurity, educational technology, biomedicine, and many other fields. Funding these innovations so that they can become commercially available products and provide the benefits intended is not easy.

The Montana Innovation Partnership (MTIP) powered by MSU TechLink Center helps entrepreneurial researchers and Montana small businesses compete for over \$2.5 billion dollars in non-dilutive federal funding grants and contracts awarded annually through the Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) program.

Friday January 25, 2019

12:15 PM - 1:30 PM

Location: Barnard 126

RSVP Amy Stix, Dtr Empower
amy.stix@montana.edu

We'll look at

- companies that have launched and technologies funded with this type of funding
- who and what is right for this type of funding
- best practices to get started like understanding the potential market, building a strong team, and which agencies to consider
- resources available to early stage founders and investigators
- Q&A with the MTIP Program Manager
